

## Report on CCNA Guidance Seminar

To guide the students a seminar on CCNA was organized on 31<sup>st</sup> January, 2012 which was delivered by Mr. Shreevalsan M. Head of ICTS Vishwa Vidyapeetham, Amrita University, Tamilnadu, India.

*“A clear vision directs you towards your goals”*

Following the vision of Gardi Vidyapith, our college supports the students in all the ways to get improved and achieve their goals. It take outs the students from their little world to this world of Technology and Science. Hence, enlightening one more way towards the wide area of networking, our college had invited Mr. Shreevalsan M.

To know about their various programs which are being held in various countries like Shri Lanka, Nepal, India, Bangladesh, etc. and to get the abstract knowledge about Information & Communication Technology.

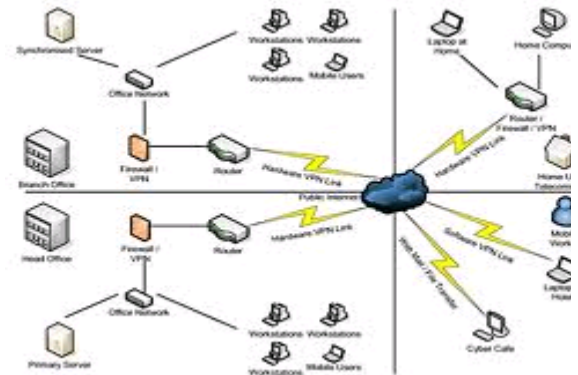

Mr. Shreevalsan had given brief introduction about CCNA Exploration Program according to which a group of faculties can get trained from their firm and then they can teach to their students in free of cost.

The prerequisite is only hardware and other setup that is required to learn this program.

Later students can give exams from their own college by paying fees and get certified for the same.

After the introduction about this tremendous opportunity, he began the demonstrative lecture on networking fundamentals.

Faculties and students while enjoying the wonderful session by Mr. Shreevalsan M. Head of ICTS VISHWA VIDYAPEETHAM AMRITA University Tamilnadu, INDIA.
