

Feature Story

Not many people are aware that the well-known philanthropist Dipchandbhai Gardi and Padadhari, a small town of Rajkot district, has some connection.

Dipchand Swarajbhai Gardi was born on April 25, 1915 in Padadhari, situated around 25 km from Rajkot. His father was a businessmen in this town. Dipchandbhai underwent his primary education from Padadhari and completed his high school from Wankaner.

He went to Mumbai for higher studies

Dipchandbhai & Padadhari : Memories of Motherland

after passing SSC exam. He cleared his Law examination and went to London to become a Solicitor. After returning to Mumbai, he started his practice in sales tax and income tax.

Dipchandbhai since childhood had dreamt to help the society through various activities. He always prayed to his deity to give him strength to donate Rupees 1000 every month for social causes.

'Decision determine destiny'. This saying was proved true by Dipchandbhai. At the age of 98 he is still donating thousand of rupees every month.

He donates mainly towards health and education. Though Dipchandbhai left

Padadhari and settled Mumbai years back, he has still maintained his connections with Padadhari. So far he has constructed more than 10 schools and high schools in Padadhari and its periphery.

Former Sarpanch of Padadhari Dr. G. L. Vasani fondly says, " people of Padadhari are proud that he belongs to our town. His 76th birthday was celebrated with pomp here. A mass kitchen was organized and renowned families like Ambani and Tata's came here to attend the ceremony."

Dipchandbhai strongly believes that every penny he saves can be used for charity. He himself lives a very simple life and avoids wasting money.

"It is difficult to find a person like Dipchandbhai. Everybody lives for himself, but he lives for others. To donate the entire income is very difficult, but he is doing this extraordinary thing every day." Dr. Vasani added.

Cover Story

Gujarat state is progressing in ways never seen before and many believe that if something is holding us back is our inability to communicate well in English language.

Realizing the demand and need for English language, it was over 100 years back a night school was started in Rajkot - just to teach English! Surprised!

What is more appealing is there is no gender or age barrier and education is imparted free of cost! Could be it any better?!

The school was started on the 6th of

Quote of the Month

Desire! That's the one secret of every man's career. Not education. Not being born with hidden talents. Desire.

-Bobby Unser

Night School; Light in Darkness

November, 1906. The thought of a night school first occurred to Prince Ganeshnarayan Parjaye who came to Rajkot to complete his formal education at the Rajkumar College. To educate his servants and their children he decided to start this school.

Initially it was a part of Saurashtra High School which later became a part of Karansinhji High School and the institute had papers that were taught in Oxford University. Fees at those times were just 25 paise and today anybody above the age of 75yrs is given free education. Due to unavoidable circumstances Karansinhji School was closed down. But to continue with the night school it started in 2005 under the name of 'Dharmarth Vidyalaya'. Trustee of this institution is

Mr. Vasantbhai Jobanputra also is a student of this school. Subjects like English, Accountancy, Computer and other courses are taught and most of the faculties are retired government officials.

Mrs. Ela Chauhan, a forty- four year old home maker was a student of this school in the year 1982. At that time she couldn't finished her education and decided to quit but very recently she has joined the night school again and plans to complete her education.

Night school is humble and a noble attempt by one man, its been hundred years now and it is continuing to spread knowledge and promises to continue and change lives for a brighter tomorrow.

Trend

Indian Institutes of Technology conducts IIT-JEE (Joint Entrance Exam) every year to enroll students to all 15 IITs of the country. There are just 9,590 seats to offer in all IITs, but every year lakhs of students appeared in this exam with the hope to get a seat in premier IITs of the country. To get admission in these technology institutes students must meet the minimum eligibility criteria and secure overall good ranking in the IIT-JEE entrance exam. This year too more than 5 lakh students

Current Admission Trends in IITs

| IIT 2012 Admission Trend | | | | |
|--------------------------|------|-------------|------|-------|
| Branch College | Comp | Elect. & EC | Mech | Civil |
| IIT, Bombay | 72 | 91 | 454 | 1592 |
| IIT, Delhi | 129 | 270 | 627 | 1785 |
| IIT, Madras | 240 | 539 | 894 | 2235 |
| IIT, Kanpur | 276 | 588 | 884 | 2275 |
| IIT, Kharagpur | 428 | 729 | 1098 | 2454 |
| IIT, Roorkee | 961 | 1264 | 1739 | 2692 |

appeared in the IIT-JEE 2012.

By looking to all the data of IITs this year we found following results. The closing merit on IITs' website shows the Computer Science and Engineering is the first choice, Electronics and Communication is second choice, Mechanical is third choice while civil is fourth choice. The students who are getting admissions in IITs are so intelligent, visionary and selective for good career.

Source : gtuinfo.in Complied by : Prof. H. N. Nimbark (Head, CSE, BHGCET)

Now Gardi Vidyapith can educate more Engineers

For the benefit of Engineering students, B. H. Gardi College of Engineering has approved additional seats in B.E. :

- 60 seats in Computer Science Engineering (Total intake 120)
- 60 seats in Civil Engineering

AICTE has approved **180** student intake in MCA (First Shift : 120, Second Shift : 60)

Now Gardi Vidyapith can facilitate Masters in Engineering

The B. H. Gardi College of Engineering is also Proud to offer Masters in Engineering (M.E.) from this current year in :

- 24 seats in Computer Science Engineering
 - 24 seats in Electronic & Communication Engineering
- M. E. (CAD/CAM) Mechanical Engineering also offered @ Gardi Vidyapith since last year.

Guideline

The Department of Engineering has taken initiative to generate awareness in students who have passed 12th science recently and their parents about Engineering branches, application, career guidance and online admission process using audio visual presentation.

ACPC Seminar 2012 at Various Cities

UDAAN Scholarship :

- For Engineering 100% Scholarship More than 80 Merit Marks
- For Engineering 50% Scholarship Merit Marks 71 to 80
- For Engineering 25% Scholarship Merit Marks 61 to 70
- For MBA 50% Scholarship Merit Rank 1 to 1000
- For MBA 25% Scholarship Merit Rank 1001 to 2500
- For MBA 15% Scholarship Merit Rank 2501 to 7500
- For MCA 50% Scholarship Merit Rank 1 to 500
- For MCA 25% Scholarship Merit Rank 501 to 1500
- For MCA 10% Scholarship Merit Rank 1501 to 2500

The ACPC seminars were conducted in

various cities of Saurashtra region. Including Bhavnagar, Morbi, Surendranagar, Rajkot, Dhoraji, Amreli and Junagadh. A huge response was received from all over. It also offered 'UDDAN' Scholarship to the scholar students.

Member from ACPC Prof. Patil, Prof. Modha and Prof. M. N. Patel conducted the presentation at various cities. From Gardi Vidyapith Chairman D. V. Mehta, CEO Prashant Mehta, Prof. S. B. Jadeja, Prof.C.D.Parmar, Prof.Hitesh Nimbark, Prof.Rakesh Oza, Prof.Yatin Shukla, Malay Kothari and all the engineering staff put their efforts to make the seminar a grand success.

Campus Buzz

BH Gardi College of Engg & Technology had arranged Pre Engineering Workshop for recently passed out 12th Science student. In this workshop they performed various activities like:

- Organizing seminar on career guidance for selection of a particular branch for engineering by experienced faculties.
- Campus visiting.

Pre Engineering Workshop for 12th Science students

- Departmental activities:
 - Introduction about department.
 - Visiting various subjects' laboratories with well equipped facilities.
 - Basic introduction about various subjects of a particular engineering branch by the subject experts.

The CSE/IT department had organized a workshop on Hardware, Networking and Internet technologies. Till date total 7

batches participated in this workshop and gained knowledge about CSE/IT. Proper guidance was provided by the experienced faculties that, why shall students select CSE/IT branch of engineering, job opportunity in Computer Science & Engineering (CSE) and Information Technology (IT).

With the help of this Pre Engineering Workshop students got a clear idea about branch selection from various branch of engineering.

Industrial Training Program Mechanical Engineering

"Well done is better than well said"
- Benjamin Franklin

The Engineering students of Gardi Vidyapith believe in setting up the benchmark by doing hard work and it can be seen by following details of training taken by the final year students at various prestigious industries of India.

Students Response

Khushbu Mehta (VIII-EC)

We are always thankful to our faculties for their support for the development of our practical aspects.

They have realized us the actual scenario of today's world and taken lots of efforts to shine our future. They are always available to us whenever we need.

We are grateful for the kind of knowledge and the support they provide to us.

Ravi Desai (CSE)

I feel pleasant to say that the CSE Dept of B. H. Gardi College is one of the best Department in Gujarat to study the Engineering in computer field because of IT research and project oriented approach. It has provide me the great opportunity to show my talent not only in

Gujarat but in India through the CSI. I am really thankful to HOD and Principal to give me best platform.

Zanza Bhatt (VIII-EC)

I am proud to say that the placement activity in our department is extra ordinary, as the HOD and teachers are taking keen interest in the same for all the students.

Students are provided placement in good companies by taking into account their knowledge and skill-set.

Parimal Gotecha (CSE)

I have completed my graduation from B.H Gardi college of engg. & tech. All the faculties were extremely useful & supportive throughout our engineering. All the events helped us to enhance our skills and refresh our mind from regular routine. Principal and group of trustees were supportive throughout the course of our graduation. I am heartily thankful to this organization and consider myself lucky to be a small part of this huge Gardi Vidhyapith.

GCET INN

MH Gardi School of Management & CC Gardi Institute of Management of Gardi Vidyapith, which aspire to offer the value based and quality education, has once again provided platform to students of Saurashtra region.

More than five thousand students from all over the Saurashtra region visited Gardi Vidyapith for GCET - Mock Round Examination..

5000 Students Visit Gardi Vidyapith

In a presentation session, students also learned how to fill up the GCET form, how to avoid some common mistakes at the time of filling the form, what to keep in mind at the time of choice filling, etc.

During the whole day visit students also come to know how MBA & MCA is different at Gardi Vidyapith than any other educational institute in Saurashtra region. Students loved campus visit, beautiful ambience and hospitality provided by the Gardi Vidyapith.

MG MART

"INSPIRE OTHERS TO DREAM"

MH Gardi School of Management and C.C. Gardi Institute of Management, Gardi Vidyapith has added one more feather to its cap: It has been awarded the Best management Institute award by Rajkot Management Association & Ahmedabad Management Association. During this four year journey,

Best Management Institute Award

it has achieved remarkable success placement of its three consecutive batches.

Over 150 National and Multinational Companies like Vodafone, Reliance Retail, HDFC Bank, ICICI Bank, Pepsi-co. HCL, Mahindra Finance, IIFL, N.J. India have been joined so far.

Today it has reached an academic height wherein a college's credibility is marked with the number of placements it has to offer. The institution is not far behind India's other premier colleges. This year's remarkable placements are our proof of the success story.

Gone are the days of preparation and presentation. It is the time to perform.

Students Training Experience

Honey Maheta

Internship: RDC Bank (Rajkot District Co-operative Bank)

My dreams were realized when I got an internship with one of the leading banks, My faculties have exposed and enabled us so that we can take on the world with ease. My experience has been blissful I am learning at every step and hope to continue to do so.

Hetal C. Kargathara

Internship: Ban Lab Ltd.

Bhartiya Aushdha Nirmanshala, is a global player and I was obliged to have got an opportunity to do my training with them. By the end of it I am hoping to be a more confident individual and be aware of how the industry works, as they say the journey of a thousand miles begins with the first step.

Sapna & Swati Patel

Internship: RNSB, Rajkot

We, MBA students of Gardi Vidyapith have reached a stage when theory needs to be inculcated in practical. We are presently interning in RNSB, Bedipara Branch, Rajkot. This experience has taught us a lot and we hope to continue learning. The biggest boon has been our colleagues and seniors at the bank who are helping us grow and teaching us at every step. We are honoured to have had this opportunity.

Sharpen Skill

Faculty Development Program

As a part of Faculty Development Program (FDP), Gardi Vidyapith has recently organized various programs for its faculties and students to enhance their knowledge & update them about current trends in the Industries. Faculties and students of different departments attended the training programs and conferences organized by various institutes and Industries.

Department of Humanities & Science

| Faculty Name | Topics |
|-----------------------|---|
| Prof. Yogesh Jani | Five Days CEP workshop on Renewable Energy Technology during May 14-18, 2012 at IIT Powai Bombay |
| Prof. Nirang Kothari | presented paper in 8th Annual Conference of Academy of Discrete Mathematics and Application & Graph Theory Day -VIII on the topic "Some new results on domination integrity of graphs" during 8th to 10th June - 2012 |
| Prof. Payal Chaniyara | Faculty Development Program in mathematics at Marwadi Education Foundation's Group of Institutions, Rajkot. |
| Prof. Pratik Shah | Attended an International Conference on Special Functions and their Applications organized by Society of Special Functions and their Applications, SVNIT, Surat. |
| Prof. Foram Rajdev | Faculty development program in MATHEMATICS at Marwadi Education Foundation's Group of Institutions with collaboration to IEEE Gujarat Section |
| Prof. Dhaval Vyas | 1 PEDAGOGY SESSION IN CALCULUS (PSC-2012) during 25th to 29th June 2012 at L. D. College of Engineering, organized by GTU. |

Department of Mechanical Engineering

| | |
|------------------------|--|
| Prof. Paresch Kasundra | one week training during at ice burg Technocast pvt ltd metoda, rajkot |
| Prof. Mehul Pujara | One week training at Redren Energy Pvt. Ltd. Metoda GIDC, Rajkot |
| Prof. Naitik Mehta | Industrial training of One Week at "SYNNOVA GEARS & TRANSMISSIONS PVT. LTD." Rajkot from 11/06/2012 to 17/06/2012. |
| Prof. Jignesh Dave | 1. Industrial Training on "Sand Casting Process" at Patel Castings & Engineering works at GIDC, Bhavnagar. 1. Two Week Workshop on "Computational Fluid Dynamics" conducted by IIT Bombay and funded by MHRD at RK College of Engg, RK University, Rajkot. 2. Awarded the certificate of "Six Sigma White Belt" by the 100% effective training and consultancy organization for the successful completion of the Basic Introductory Training on Six Sigma Concept. |

MCA

Research Paper on **The Impact of Web-based Learning on Higher Education** selected and published in Quest International Multi disciplinary Research Journal Vol - 1, Issue - 1, June 2012 with ISSN : 2278 - 4497.

GIJMC Live

Student Journalist's on AIR

Nidhi Anam

Interning At: Radio Mirchi (FM)

The Journalism and Mass Communication department of this institute has blessed me with an array of experience, which has been embossed in my life for days to come. I am currently interning at Radio Mirchi, one of the biggest FM stations in our country today. I feel lucky to have an opportunity to learn from one of the best media organization. During the training period, I was assigned significant work. I collected bites, was a part of recording and helped in the production department. I look forward to gain a lot more experience.

Mota Keval

Interning At: V TV Ahmedabad (Gujarati News Channel)

I believe a college is a milestone where you are groomed and taught how to achieve your passion. The course structure at the Journalism and Mass Communication department has been finely designed to help me to achieve my dream. I am interning at V TV. I was always fascinated by television broadcasting and when I got this opportunity I grabbed it. The most challenging biggest learning experience was to finish a given assignment within a stipulated time period. I also got the idea of how this industry works and how everyday is a new day with new stories and different challenges. I am lucky to be a part of this world.

Gohel Ajay

Interning At: Bizz News Ahmedabad (Gujarati News Channel)

I played varied roles as a part of this curriculum; Journalism and Mass Communication, from handling the camera to anchoring shows, reporting to giving Voice Overs. All this and more has contributed in making me a more confident individual. Bizz, has given me a chance to explore my horizons. I was assigned with a lot of field work thus meeting new people interacting with them, which I believe is an art in itself. I am looking forward to have more learning and experience.

Rawal Twinkal & Saket Mehta

Interning At: Doordarshan Rajkot

This course has exposed us to the pioneers in the industry of Mass Communication. Our lecturers and visiting faculties were some of the most significant people addressing us, giving us an idea about how the industry works and what it demands. Doordarshan is a dream for many, but we decided to pursue the dream. We believe that when you learn from them there is no turning back. It teaches us how to be true to the public, how to swear by the institution and how nothing is more supreme than development of the nation and its people. The technologies we believe are the best in the field and hope to get an opportunity to continue working here.

Raksha Pandya

Interning At: Radio Mirchi (FM)

A course which most colleges take three years for completion our faculty managed to do so in a matter of a year and I can vouch that absolutely no compromise was made in the quality and standard of teaching and exposure. I can still recall my first day in college when I, for the first time faced the camera, it was dreadful! But with time it became something we did on a regular basis and today I can operate it with elan'. At Radio Mirchi I am assigned to work on the scripting, prepare topics for discussion and debate. The most challenging of it all is to come up with something that would immediately attract listener's attention which would not only be tropical in nature but would also provide instant gratification by just listening to it.

Sameer Joshi

Interning At: V TV Ahmedabad (Gujarati News Channel)

My internship at V TV gave me a first-hand experience about the industry. It is truly the college and the faculty who has made me capable enough to take on the world. At V TV I got the opportunity something to learn new every day. My seniors have been very generous and taught me well the nuances of the industry. I was assigned interviews with dignitaries and also how and what should be communicated with people of varied backgrounds. I have also been taught copy-editing, reporting, etc. I am also learning new techniques and software's. This is definitely my best experience so far and I know this will surely help me in my future endeavors.

Poonam Patel

Interning At: Radio Mirchi (FM)

As a student I use to listen to FM at all times, it looked glamorous but today when I am actually a part of that institution I appreciate the effort that goes into producing shows. I have also successfully aired some of the shows. Rajkot is now listening to me and I feel so proud, although none of it would have been possible without the undying support of my professors.

Parag Khakhar & Ami Bosamiya

Interning At: Doordarshan Rajkot

We believe we are bestowed with nothing with the best. The college and the course structure has taught us all that is needed to know about Mass Communication and Journalism and this circle would only be complete with a perfect internship and what better than the initiators, Doordarshan. Many might call it archaic but we believe it is an epitome of supremacy. It's ethics are intact and they do not subject themselves to any form of yellow journalism and as a student it is my greatest lesson learnt among many others. Honestly, we feel lucky!

Hardik Kathwadia

Interning At: TV9 Ahmedabad (Gujarati News Channel)

Scripting, editing, reporting, desk responsibilities -there was absolutely nothing that was not taught to us so when one day I was assigned a story that exposed government contractor's corruption I did it with confidence. During the shoot the government contractor offered me and my team some big lump sum, which we strictly denied. It did not stop at that. They tried to pressurize us by showing muscle power, but we successfully came out and released the story. We have been taught to avoid "Yellow Journalism" and I feel proud to have followed it.

Lakhman Patat

Interning At: V TV Ahmedabad (Gujarati News Channel)

As a student journalist our learning was of a very practical nature but my internship has sent my adrenaline rushing. One night at ten o'clock, a raid took place on gamblers. There was nobody at the studio, I was asked by one of the senior journalist to cover the news. Seeing the opportunity I immediately agreed. My hard work was recognized and well appreciated. I cannot deny one fact that I am indebted to my college for teaching and encouraging taking up new challenges and breaking all inhibitions.

Interning At: TV9 Ahmedabad (Gujarati News Channel)

My experience at TV 9 has been blissful, its a treasured opportunity. I am learning from the word go. My first day has been extremely memorable, a thrilling experience when I was assigned to cover live an inferno which broke at a cold storage near Dahegam. I hope to continue my career in this field and make my professors proud for entrusting and believing in my capabilities. I think it is the fact that I am constantly in pressure and dead-lines that is teaching me and making me a very confident individual.

Arty Party

Go away o' dark night; and will tell me
Beautiful morning will come;
Bud of flower will come with sweet fragrance,
Show a beauty of spring flower;
Such wish playing a trick with heart,
Such spring beauty will come again and again;
Your ocean eyes will splashing liquor,

Spring of Youth

Spirit of intoxication will see in my eyes;
You have gone far away from cost,
And entrapped in whirlpool oneself;
O' pearl diver! Why do you afraid?
Well, plentiful storm will come.

Reader's Talk

Gardi Times is a source of information which is helpful to catch a train from right platform to a right destiny. This is a very good activity conducted by Gardi vidyapith, where students and faculties get chance to share their thoughts.

Vivek Dhaduk (7th Mech.)

Gardi Times is a wonderful idea through which students and faculties get chance to express their ideas, information, spiritual thoughts. like the "cross road" column which is very helpful to those students who are going to build the building of their career. I wish all the best for entire team of Gardi Times.
