# MAY MEALS

The most basic ingredient that identifies you as an engineer is the information literacy. The contemporary workplace makes it inevitable for engineers to work in inter-disciplinary teams with projects that involve skills and tasks that are multi-disciplinary in nature. BHGCET offers a pool of opportunities at national and international echelon to ignite the passion for engineering and pave the path for future potential to embark an altitude of success. The daily teaching-learning methodologies make the move from NOVICE to NINJA exciting and are the daily MEALS OF KNOWLEDGE.

"World Skills  
on  
your  
Doorstep"

A work of service is the unique result of a unique temperament. NSS renewed initiation and an assortment of varied ideas marked the reformation ceremony of NSS unit of BHGCET.

Robocon 2016 it is a glad moment to mention that BHGCET students have been participating in the national level competition ROBOCON 2016 where an outstanding performance is always witnessed.

BHGCET is recognized as the research partner of Graduate School of Smart City Development (GSSCD).

# JUNE JAGGERY

BHGCET plays a vital role not only for its students' development but also for faculties' knowledge advancements. The 3-days FDP on Design Engineering was conducted in the month of June, wherein 3 faculties from MIT Pune had specially participated.

GTU's post graduate center for technology has been designated the status of iGLOBE - IUCEE Gurukuls for learning and outcome based education. Dr. SiddharthJadeja, the executive director of BHGCET has acquired the post of convener in core committee formed for iGLOBE.

To develop the ideology of determining the interest of the students, Knowledge Sharing Center at BHGCET was engrossed interaction with students regarding introduction and scope of various engineering branches

## Education for Individual and Social Responsibility

Industrial visit has its own importance in a career of a student who is pursuing a professional degree. Department of Electrical Engineering arranged the visit to HI-Bond Cement including stopover at Old Age Home "MAVTAR".

21st June - The International Yoga Day. This was the great opportunity to take in the value of discipline. Students got the chance to know how yoga embodies unity of mind and body.

Industry visits sensitize students to the practical challenges that organizations face in the business world. It also gives greater clarity about various notions for students as they can practically see how these concepts are put into action, which in itself is a rare exposure. By visiting the industry they get to understand

the risky conditions in which workers work, the people management challenges involved in managing workers apart from getting hands-on technical knowledge.

Making industry visit mandatory for every student, BHGCET provides an opportunity to plan, organize and engage in active learning experiences both inside and outside the classroom. Industry visits are the jiggery to knowledge meals.

It is always expected that students should be developed in three domains: Knowledge, skill and attitude. The department of Mechanical Engineering inaugurated the Center for Skill Enhancement. The function was graced by the presence of Directors and Experts from various industries.

# JULY JELLIES

College is a roller coaster of ups and down, but with having met great friends and starting to like life away from home, attending college one of the best experiences. Trying but great experience for a student. The way in which you grow up, mature, and find out who you really are, is something you can't accomplish without going to college. The feelings of being home sick, the loneliness of not knowing anyone, the pressure of playing college football, living with someone you have never met before, are just some of the struggles of being at college for the first time.

"Good Times  
+  
Crazy Friends  
=  
Best Memories"

Learning beyond books has always been an interesting chore. To boost the competency of students a workshop was organized to initiate the "Earn while Learn" concept wherein Blogging with SEO implementation was taught.

BHGCET organized an OFF-CAMPUS DRIVE for INFOSYS. It was the day of new association, joy and enthusiasm. The institute was glad to welcome 4 delegates and overwhelmed with the response from students. The Team Infosys was happy to hail 7 students who were overjoyed by their selection

Looking forwards to the unceasing evolution of engineering fraternity and making them industry ready, a gathering of talented traits from industry and academia was conveyed with Dr. Rajul Gajjar, the honorable I/C VC of GTU at BHGCET.

Be Crazy, Be Wild..... the fun starts with the ticks of gathering wools and the memorable monsoon party for hostelries was a majestic merriment

Engineers are one of the real contributors to society. To identify the real society problems, students of BHGCET explored the nearby villages, Nikava and Nana Vadara wherein they deduced various definitions for the benefit of people there.

Skill Enhancement Center is a noble initiative by BHGCET that have set an example of strong industry-institute collaborative efforts in imparting technical skills. To admire the same, a networking dinner was arranged.

'Train the Trainer', the phrase was evidenced to embark the industry practices among students; the teachers took technical training from industry which aided them to imbibe the in-time knowledge in students.

Reconnecting with the Institute has always been a cherished moment for Gardians. The alumni are keen to intermingle with the juniors and so their interaction had been arranged to create awareness about the technicals on field.

# AUGUST ALMONDS

**Practical Implementation**  
Workshop on E-Tabs, Excel-O-  
Graphy

# AUGUST ALMONDS

The professional tour at Sardar Sarovar Dam and Lavasa City created awareness about all basic amenities and entity of ideal city at Lavasa. This tour helped the students to develop the idea of different domains of civil discipline and critical role of civil engineering.

The Workshop on Sixth Sense Technology was conducted by an expert from SMART LOGIC. This workshop also included the level of Bloom's taxonomy like Understanding, Analysis, Apply and Evaluate.

Learning activities - Cipher Activity, Communicate and share in web services, ontology in web services, sorting with fun, workshop on e-tabs, Excel\_o\_graphy and many more.

Looking forward to continuous growth in professional skills among the students "Campus to Corporate" workshop was arranged by BHGCET. Training included communication Skills, interview handling, resume making and SWOT analysis.

Independence Day celebration was the highlight of the month. Determine to contribute for the betterment of India and its people, the cloth distribution activity to the needy by Gardi Family members was the icing of humanity decorated over patriotism.

Competitions play a role in motivating students to perform and excel and offer a lot more reward than just the winning prize. Competitions offer a chance for participants to gain substantial experience, showcase skills, analyze and evaluate outcomes and uncover personal aptitude. Competitions also encourage

students to adopt innovative techniques and develop their ideas and skills. BHGCET provides a wide platform for healthy competitions. Students are encouraged to participate in the in-house and external competitions. The knowledge is enhanced and the to-do attitude is nurtured by the competitions round the year. They serve as a brain food.

**Enhancing Knowledge**  
Modern Techniques for Canal Lining

**Health is Wealth**  
3 days Yoga Shibir

# SEPTEMBER STREAMS

**B**HGCET provides best resources, opportunities to the students to discover and explore themselves. The campus has highly maintained laboratories, library, hostel, sports facility etc., where emphasis is on the laboratory infrastructure to conduct the practical and experiments in the respective courses. Apart from lecturing, demonstrating & classroom discussions, an interdisciplinary approach, project based learning (whereby every course includes projects in every session or semester), & industry fusion courses to meet the demands of industry.

**"Delivering Results, Reliability & Rock Solid Dependability"**

To nurture the health of students and create awareness for same, 3 days Yoga Shibir was set wherein yogasans were taught and their benefits were explained.

The rejuvenating 3 days fun trip was arranged at Udaipur and Mt Abu. The exploration of historical places added a varied flavor of experience to student life.

GTU Youth Festival - XITIJ 2016-17 is the most awaited platform to showcase the young talent in Theatre, Music, Literature and Fine Arts. BHGCET students have shown extraordinary performance and bagged multiple awards.

India is symbolized by the plurality of its culture. SPICMACAY is an NGO working for Indian Cultural Heritage and has a global presence. SpicMacay team's presence at BHGCET encouraged the students towards ICH.

# OCTOBER OATS

The institute is appointed as a VIRTUAL LABS NODAL CENTER under the National Mission on Education through ICT, an initiative of Ministry of Human Resource Development.

Gardi Rasotsav 2016- the most awaited night for all Gardians was an instance of celebrations, lights, dance, music and delight. The unending ecstasy drives the night LIVE.

BHGCET organized Design Thinking Canvas Activity which was an amalgamation of Idea Development and Knowledge Sharing. The students were bestowed with the presence of experts from 60+ industries. It was the fruitful day for students.

Towering triumph was the Placement Season of 2017 batch that witnessed 50+ hiring in well known industries of IT sector within a short span. The students were selected in various domains such as BDE, developer, QA, designer etc.

*New Beginnings,  
Endless Possibilities...*

Student Led Design Conference (SLDC) is referred as the epitome of students' professional development. Being fervent, ASME-BHGCET Section grabbed the chance to host the zonal level activities comprising into technical event- SLDC 2016.

# NOVEMBER NUTS

Engineers play a fundamental role in facilitating the functioning of modern society. But the ultimate objective of education includes inculcating human values in the students. The importance of human values has been aptly emphasized by educationists and Commissions. Timely education in imparting human values to the students is the need of the hour which has been rightly identified by BHGCET. To inculcate the same in the aspiring engineers of the institute, multiple activities, events and associations have been formed wherein the students contribute to the welfare of society.

"Engineering is not only study of 45 subjects but it is moral studies of intellectual life."

To add a flavor in teaching learning process and break the monotonous board teaching various activities were conducted. To name a few, quiz using KAHOOT, model making competition.

Industry & Academia - Working collaboratively to ensure every student achieves academically, socially and emotionally. The teachers have taken industrial training which will aid to build the content strong and enhance their students' knowledge and interest.

*Go Farther than you ever Dreamed*

BHGCET students celebrated the auspicious festival of Diwali with special children of PRAYAS PARENTS ASSOCIATION and spent the happiest of festivals with utmost joy. The day was very rewarding and the real celebration brought a sense of satisfaction.

Placement season continues adding more hires on the chart and adding feather in the cap of Gardi family.

# DECEMBER DESSERTS

BHGCET becomes one of the Nodal Centers for VIRTUAL LABS under IIT Bombay. The center was inaugurated in the virtual presence of MR. Pushpadeep Mishra from IIT Bombay and Mr. Nitin Bhate from MSU Baroda.

Industry visit has always been significant in realizing the technical concepts into real implementation. A visit at Gopal Snacks was conducted to show the production process and management of human resource and time..

Continuous advancement of students and teachers is the benchmark of BHGCET. The teachers attended 5 days STTP in their respective field of expertise.

TECHIES & TALKS - Of the Students, By the Students and For the Students. An initiative of hostel boys to impart interdisciplinary knowledge to each other and expand the forte of their expertise.

Recognizing the importance of extracurricular activities in education, academic institutes in India are focusing on enhancing the overall experience of students by organizing several technical and

cultural festivals. These tech fests include events that allow maximum participation from students. It is the best way to showcase and nurture the talent of students.

Young talents and the current generation is full of ideas and vigor to lead the world and make a difference in society. The Women's Council of BHGCET is lead by the elected girls committee and they took a pledge of continual growth of Gardi girls in all aspects.

# JANUARY JUICES

**B**HGCET encourages students to participate in Sports and Games giving importance to physical education as well as encouraging student's interests. Physical Activity helps you to maintain good health; physically fit and mentally healthy. Physical activity becomes an outlet for releasing tension and anxiety, and facilitates emotional stability. In order to develop integrated personality among students, the College provides facilities for co-curricular and extra-curricular activities such as sports and games.

"Arrival  
of  
the  
Fittest"

Grounded to the Tradition, Open to the Spirit... Republic Day celebration was a splendid patriotic fervor. Respect for nation was reflected in every performance and move of the students. Collection for Sainik Welfare Fund was done open heartily and they paid tribute to the soldiers by their act.

The start of new semester is always energetic and fun-filled. The orientation was intended to introduce the upcoming semester subjects on a light note to prepare the students for a GET-SET-GO of next term.

All round development of students is a prime goal. To widen the management skills in the students they were encouraged to conduct an activity. So, Electrofestive, the departmental event was organized and executed by the students which were a success.

Faculty Development is the passion of the honorable Director, BHGCET Dr. Siddharth Jadeja. An expert session was organized on "Balance of Emotional Quotient and Intelligence Quotient as an Educator". The converse was conveyed by the proficient educationalist, Dr Ketan Kotecha.

To cherish the beyond routine path of an alumina, Mr. Rajesh Kumar; a Talk Show "Shoot the Breeze", was structured at the institute. It was a self narrated story of an engineer to an author. His journey that reached a milestone to write the novel, "The Love victim" was inspiring.

# FEBRUARY FRUITS

"A teacher must be full time, full life and fantastic learner". To develop the cognitive learning approach for the quality teaching, the teachers attended the FDP at SVNIT, Surat.

Students of Gardividypath had taken active participation for cheering up all the runners of MARATHON 2017 and spreading awareness on green environment. The students also participated in the run and received finisher medals.

## "Experience Enhance Excellence"

Workshop is the core of learning about different materials, equipments, tools and engineering practices that are observed in different fields' functions and operations. Workshop is also of prime importance to enhance the practical knowledge.

Knowing the fact that a good knowledge on any subject does not warrant the ability to apply it to solve real-time problems, BHGCET provides a wholesome cluster of varied workshops. Employers are keen for engineers, who prove that they can call upon the relevant skills as and when required. We strongly help our students to start developing projects "that work" to make their application skills evident.

The effort to develop the contributor personality in an engineer took shape beyond classroom. Fun @ Funworld.... The activity was indoctrinated by Pragya Charitable and Education Trust wherein 3200 special people were taken to the amusement park and Gardi students served as volunteers.

**Industry Visit**  
7 Days Industrial Tour to DUBAI

# MARCH MAZE

Recent changes in the world and engineering presents both challenges and opportunities to engineering education to incorporate entrepreneurship and innovation. Technological innovation has long been the key to a nation's growth and prosperity, and engineering has been an important driver of this innovation.

As engineers, you are expected to be creative enough to come up with innovative ideas and analytical enough to link knowledge from different areas to solve problems. BHGCET provides platform and support to tinker with every new idea the student encounters. Experiment!

"The  
Power of  
Applied  
Intelligence"

Continuing the tradition, BHGCET organized Design Thinking Canvas Activity which was an amalgamation of Idea Development and Knowledge Sharing. The students were bestowed with the presence of experts from well known industries. It was the fruitful day for students

Mr. Keshav Bansal, the owner of Gujarat Lions was present at Gardi campus. The students went crazy on his coming and were overwhelmed to see him play on Gardi field.

The 7 days Industrial Tour to THE CITY OF CONSTRUCTION - DUBAI was organized from 23/03/2017 to 29/03/2017. The tour had been planned considering the comfort, safety and security of the students in a manner to deliver the best through an industrial visit where they had vast exposure to modern structures and various domains of Civil Engineering.

Graffiti - Representations of graffiti all over the world range from elaborate pieces of "artwork" to five minute sketches of spray-paint. People often leave their traces in wet cement or concrete. BHGCET left an open field for students to paint their ideas on the walls of cafeteria.

BHGCET has always respected womanhood and given equal opportunities to all the girls for their advancement. As the tradition continues, Women's Day was celebrated on a high note with multiple competitions and the grand title Miss Gardi was awarded to the deserving candidate.
